HEKUR[®]

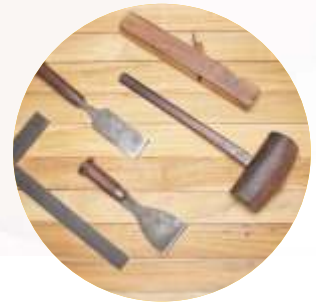

THE TURN KEY PHILOSOPHY

Every philosophy takes birth from a deep sense of responsibility accompanied by profound thinking. Therefore, when applied, these philosophies prove to be fruitful. Hekur's Turn Key philosophy is no exception. It says: "Share, relax & turn the key". To be precise, share the dreams of your perfect abode with us and all you have to do is come back and get the key to the front door. We call it a completely personal philosophy which defines the experience of any individual letting Hekur partner their dreams.

We are one of India's leading developers of home and office spaces and when you talk with us, you are laying the first brick of your ideal living space. When it comes to construction, Hekur is equipped with experts from all domains ranging from planning and designing to construction plus our own brand of home fixtures, an asset that paints us different. With all these entities we make sure to turn that exact dream of yours to absolute reality.

It is always the inner beauty that gets reflected outside. So says the philosophy of human mind. It does apply to homes as well!

Adorn your interiors with outstanding carpentry services from Hekur's team of ace wood artists. Our carpentry services include the designing and making of any type of wardrobes, showcases, furnitures etc.

WHERE MIND REFLECTS

*A good meal is the artful reflection of the chef's mind.
So proves the traditional art of cooking.*

Get your mind elated with Hekur's elegant range of kitchen designs. We undertake designing of kitchens that reflect your concepts. Where food and innovation go hand-in-hand, we provide recipes for the perfect kitchen which accommodates elegant stoves and hubs, child-safe drawers, compact cutlery storage ideas and a guarantee of absolute safety.

Our gallery is stacked with a range of kitchen designs starting from compact and stylish modern kitchens to the elaborate and spacious kind. Or if you are a seeker of trends we do have an array of stainless steel kitchen cabinet designs, the most recent evolution in this category.

Kitchen spaces turn out to be spacious and comfortable to work in when we create clever designs that fit into the area. From the smallest detail to the biggest ones, we keep everything important for your own safety and fun.

Customization option follows here in our catalogue as well.

Share with us the ideas of your dream kitchen, and we will visualize it, create samples and actualize it for you, with our team dedicated towards realizing your imagination as best as we can.

With the best quality raw materials for the design execution, we construct strong and durable kitchen accessories for you, never leaving comfort and ease of use behind.

THE PERK OF ACHIEVEMENT

Every dream made true is an achievement. Crown them with pride.

That's what we do. Crown your dream space with our exclusive series of handrails, a perfect blend of beauty and strength.

Adorning your stairs, balcony or patios with Hekur handrails is a visible expression of your taste in fine craft and respect for creation.

Hekur handrails come in three series; Stainless Steel, Wood & Colour Coated.

Stainless steel handrail

It is of significant concern that the material used for handrails is strong and durable. The highest quality stainless steel, 304 grade, is being used in manufacture of the handrails we offer. This grade of steel does not rust or get damaged easily.

WIRE ROPE SYSTEM I STAINLESS WITH WOOD I PRE-ASSEMBLED POSTS I GLASS CLAMPS
WELDABLE GLASS CLAMPS I PRE-ASSEMBLED HANDRAILS I JULIETTE GLASS BALCONY I LED LIGHT SYSTEM

Wooden handrail

Stainless steel together with exotic and natural woods is another exceptional range of handrails we offer. When combined with stairs made of toughened glass, another area of expertise, exhibits simplicity and grandeur.

GET ENLIVENED BY NATURE

Get a brighter smile from the sun by letting him paint your walls and floor with adorable light patterns.

Our Pergolas attached with toughened glass offers you beauty as well as protection.

This garden feature which has been adapted into houses and offices, is a customizable one with us, and our clientele has always given positive feedback on our efforts of realizing their ideas and tips. Hekur Pergola designs enhance the recreation and relaxation experiences to a higher level for sure.

Hekur Canopies is another creation that blends beauty and strength offering you the optimal roofing solution. With Spider Fitting technique that provides unbeatable stability and strength, our canopy designs are timeless. Stainless Steel/ MS are used in the construction of this style statement for your home or office.

Customizable designs and endless combinations can be chosen from our long list of choices to enhance the living experience that everyone deserves.

THE OTHER SIDE

Transparency comes alongside trust and panache.

Get to know more about the peculiarities of Hekur toughened glass. Safe and exquisite, toughened glass adds superior quality and aesthetics to your home, office or business place. From simple balconies to large and complex showroom designs, we storm up ideas that are rarely seen anywhere.

Chemically treated toughened glass provides safety to the optimum level. Even if accidents occur that might cause it to shatter, there would be no harm compared to ordinary glass. Using the best quality toughened glass, we ensure that the finest designs add charm to the whole setting.

FINALLY...

...what you can look for is an art work that demonstrates the perfect symmetry of dedication and craftsmanship delivered on time. A brand trait we have owned and proved through our years of service. A trait which has helped us to row ahead the crowd. A trait we are devoted to follow.

*So go the steps defining the Hekur philosophy.
Climbing of which can finally lead you to a dream come true...*

NOW IT'S TIME TO TURN THE KEY.
